Amendments to the Specification:

Please replace the paragraph beginning at page 29, line 19 of the application as filed with the following rewritten paragraph:

Cash out menu 300 of Fig. 8, for example, enables the player to increment or decrease the amount paid to the casino account remote from the gaming device via selectors 302 and 306. With cash out menu 300, like cash out menu 100, the gain of one form of payment necessarily dictates a loss of funds in another form of payment. That is, a cash out using cash out menu 300 is, in every case, a total cash out.
